To Whom it May Concern:

It is my great pleasure to recommend Ejmin Mehranian for consideration regarding any professional endeavors he chooses to pursue, particularly as a Full Stack Software Engineer.

Unfortunately, due to TixTrack's specialization in live entertainment, 100% of our clients have closed operations due to the COVID 19 pandemic, leaving us no choice but to pursue workforce reductions. I know that I speak for our entire team when I say we were sad to part ways with him.

On almost his first day, Ejmin was tasked with developing a live interface with Ticketmaster's APIs to provide a white label buying experience for our largest customer. It was a very important project for us (not something I would regularly assign to a new employee) and one of the first of it's kind in the United States. Ejmin was able to help us deliver on time and on budget to the delight of all stakeholders.

In addition to performing exceptionally at his job duties, Ejmin is also a great team member who is pleasant and courteous to work with, is friendly and talkative in the office and will work with others to help the team achieve success.

In summary, Ejmin is a top performer and I am confident that whatever path he pursues going forward he will experience great success. If you have any questions regarding his abilities or character, please do not hesitate to contact me at the email address above or call me at 310.817.9695.

Sincerely,

Michael Ripberger
